

MANSION IN MALAGA

Design by Mercedes Arce Interiorismo

A welcoming mansion with the essence of the Mediterranean, where blue and white tones predominate, intertwined with unparalleled elegance and captivating harmony.

Mansion refurbished by the developer Adendia

Mercedes Arce

Passionate about design, architecture and art. The philosophy and success of this studio is based above all on great teamwork that allows it to develop and resolve all kinds of needs, from residential, commercial and office projects to furniture and accessory design.

It combines pieces from different periods and trends, always in harmony.

"Our aim is to create atmospheres, spaces suited to each person's personality. I like to make the most of pieces that are important to my clients, that have a history, an aesthetic value."

In each space she seeks balance and harmony, combining aesthetics and functionality. Following a professional career in the financial world, during which she was always in contact with design, aesthetics and art, it was in Mexico, inspired by its colour and intensity, that she came into contact with "The World of Interior Design" and there she began her journey, guided by the creativity and intuition that gives her enthusiasm and love for this work.

Gold Medal of the Forum of Europe 2001 in recognition of her professional prestige. Interior designer of the new shop Decoluxe Marbella, and for the second consecutive year she has participated with a space in Marbella Design Art.

An exquisite mansion that masterfully embodies the essence of Mediterranean design in its interior. This space stands as a paradigm of decoration, where Mediterranean tones are meticulously woven into a fabric of unparalleled elegance and captivating harmony.

Each enclave of this aristocratic residence tells a story of inimitable design, where ornamentation stands as an artistic manifestation in a world of luxury and sophistication where beauty and distinction converge in a symphony of impeccable harmony.
